

Why can't you find something better to complain against rather than trying to get rid of my satellite radio. I love my XM radio and can't stand local radio they don't play anything good if at all I would get rid of local radio stations and run on XM only. Infact I do all except traffic which I will be getting soon in seattle. Leave XM alone and worry about trying to save our lives due to war. And leaver our radios alone. You FCC Bullies.
